## Science spotlight!

We have started a new long term plan in science this year—called White Rose Science. Mrs Wallace is our subject lead and she is really pleased with how engaged the children are and how much they enjoy their science learning. All the children are taught within year groups, not classes, which means there are smaller groups and lots of practical work! This term there is lots of planting and learning about growth—which also means getting outside in our lovely grounds too.

## Extended school—Summer 2

As this half term is so short—we have to send out the booking form for the Breakfast and Chill clubs this week so that we can get it all booked in.

Please, if you can, get any regular slots booked in, as it helps us so much. There is much more admin time for us if we have to catch up on bookings when the form has closed. Obviously drop ins are not a problem and weekly changes, but if you know you need certain days every week, then please get them booked.

Bookings close next Friday.

Extended school invoices will come home next week for outstanding payments.

## Year 6

We have a brilliant Year 6 group, who have a busy week coming up next week. As with all our learning expectations—we just want our children to enjoy trying their best. They are all at their peak for primary school—they've worked hard and they are nearly ready for the next challenges of secondary school.

Tests do not test everything—in fact they are only a snap shot in time. We just want them to be proud of themselves, and what they know and show off!! We know they are all fab anyway—and we've lots of fun and treats planned for the rest of the term.

## Computing e-safety

The computer club led an e-safety assembly this week—sharing with the children how they can keep themselves safe at home and at school. Please be aware of **VR Headsets and chat rooms**—like all online gaming, as parents, it is important to safeguard your child to prevent open access to chat rooms. Some children have mentioned they have these devices.

## We are so proud of our Millie G!

We have followed Millie's career in Tae Kwon-Do since she started school! Earlier this year we knew she was working towards her Black Belt—which also involves learning some Korean! We are so excited to say that she achieved her Black Belt at a huge grading event. This means she can attend gradings herself and support with grading others—and has the title 'Maam'!!

**Brilliant achievement Millie—an inspiration to be resilient and keep at it!**
